

Business Decision-Making Framework

Identify the problem or need

How can your school adopt a more environmentally-friendly approach to waste management?
Find out what currently happens to waste such as paper, plastic, food, metal etc.

Research into the problem and possible solutions

Find out more background information about reducing waste, re-using materials and recycling.

Suggest solutions

Write down any ideas that come to mind from your research.

Analyse the outcomes and solutions

Consider the advantages and disadvantages of each idea.

Evaluate the outcomes and solutions

Select a possible solution/s to the problem and justify your choice. Complete evaluation forms assessing how you dealt with this challenge.

Review skills, knowledge and understanding

Reflect on how you have used your skills, knowledge and understanding to solve this problem. Is there anything you would do differently next time? If you are pleased with your learning, link this exercise to your portfolio of enterprise learning.

Set new targets

If appropriate, revise your personal targets for developing your enterprise skills.
